AUTOPHOS® SERVICES
ONSITE START-UP & TRAINING SERVICES

NEW!

Kele

FEATURES

- **Commissioned / training by an experienced lighting controls engineer**
- **Warranty extension - The manufacturer's warranty is extended from date of owner acceptance, instead of ship date (warranty period is two years)**
- **Optimize performance through expert commissioning**
- **Owner training - a comprehensive training program to ensure maximum value of the AUTOPHOS® system**

BENEFITS

The factory engineer will:

- **Inspect equipment against installation guidelines to insure proper installation and configuration**
- **Verify terminations and programming**
- **Insure lighting system integration with BAS, IT, Security and other appropriate networks is functional**
- **Perform programming to optimize performance**
- **Provide user training**
- **Document the installation and system programming**
- **Formally finalize owner acceptance**

NOTES:

- **Initial day reflects traveling costs to/ from jobsite and eight hours of service time.**
- **For estimating days required, use a standard of eight panels per day maximum.**
- **International service is available, contact Kele International sales.**
- **Standard service lead time is 14 days. Rapid service available at an additional cost.**
