OUR MANUFACTURER PARTNERS

APOLLO VALVES

- Heavy duty industrial and general purpose ball valves
- Specialty products

AQUAMETRIX

- pH, ORP, dissolved oxygen, and conductivity probes
- Analytical controllers and transmitters for liquids
- Water quality analysis equipment

AZ VALVES

- Plug and control valves
- Sampling valves and valve systems

BRAY AND FLOW-TEK

- Butterfly, ball, and check valves
- Actuators and accessories
- Metal-seated, zero-leakage triple offset valves
- Limit switches, solenoids, and positioners
- Knife gate valves
- Severe service ball valves

CHEMELEX (RAYCHEM, PYROTENAX, TRACER)

- Industrial heat trace
- Turnkey project solutions
- Self-regulating and MI heating cable, fire-rated wiring

DAISY DATA DISPLAYS

- Computers, enclosures, and keyboards for hazardous and difficult environments

ELPRO TECHNOLOGIES

- Industrial wireless solutions
- Wireless monitoring controls and data

ENOTEC

- Oxygen analyzer systems
- InSitu CO/O₂ analyzers

FIREYE

- Flame safeguard controls and scanners

FLUROSEAL

- Sleeved two and three-way plug valves

FUJIKIN

- Ceramic ball valves
- Ceramic control valves

HONEYWELL

- DCS, hybrid control systems and data acquisition
- Instrumentation for pressure, flow, level, temperature, and analytical measurements
- Fixed and portable hazardous gas analytical and life safety solutions
- Wireless technologies for process monitoring and automation
- Gas regulators and meters
- Terminal and pipeline automation
- Industrial burners
- Fuel trains, valves, controls, and accessories for burners

JFLOW CONTROLS

- Ball, control, and specialty valves
- Pneumatic and electric actuators
- Gear operators, positioners, limit switches, and solenoids

KROHNE

- Coriolis mass flowmeters, magnetic flowmeters, variable area flowmeters, and vortex flowmeters
- Radar level transmitters for liquids and bulk solids
- Vibrating point level switches
- Process analytics, pH, conductivity, ORP, turbidity solids concentration, measurement and control

MAC-WELD MACHINING

- Instrument valves, manifold, isolation valves and fittings
- Sampling systems for process, power and gas distribution industries

BPM

- Self-flushing sanitary, tank bottom and high performance single and multi-port ball valves

PRECISION DIGITAL

- Indicators
- Totalizers
- Batch controllers

PROMATION ENGINEERING

- Quarter-turn and linear electric actuators
- Hazardous location approvals available

SAMSON

- Globe style and V-port control valves, actuators and accessories
- High pressure and steam conditioning valves

SCHROEDAHL

- Pump protection valves (ARVs)
- Desuperheater and spray water attemperator valves
- Turbine bypass valves

UNITED ELECTRIC CONTROLS

- Mechanical and electronic pressure and temperature switches and sensors
- Thermocouples, RTDs, and thermowells

VAC

- High performance valve positioners for rotary and linear actuators

VOGT

- Forged pressure seal parallel slide and flex wedge gate valves
- Bolted bonnet and pressure seal globe, check and stop checks
- Forged Y-pattern isolation valves, forged metal seated ball valves
- Axials and through-conduit gates

WIKA

- Standard and specialty diaphragm seals
- Pressure gauges
- Pressure and temperature transmitters
- Industrial thermometers

SERVICES & SOLUTIONS

A KELE COMPANY

- System integration and project management
- Design, configuration, field services and troubleshooting
- DCS, hybrid, process and combustion control systems
- Wireless network integration
- Instrument assemblies
- Valve automation
- Custom panels
- Field service
